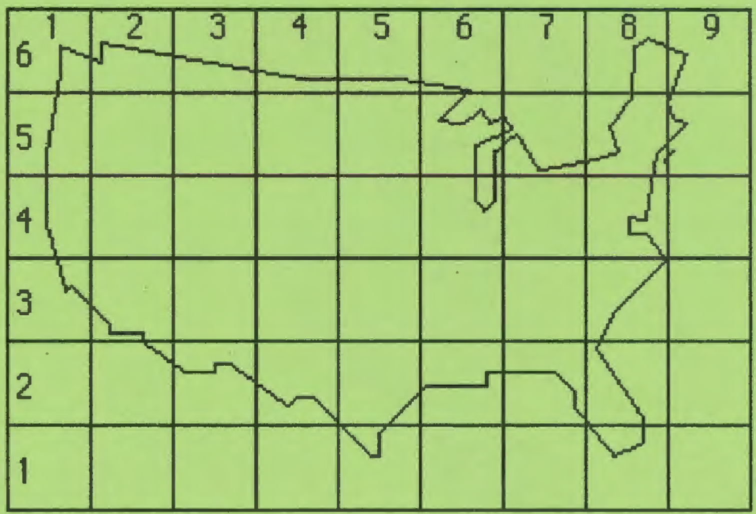
The LogoWriter *World: The U.S.A. Map and Time Zones*



Also—

Let's Get Rich: A Study in Big Numbers and the Power of Doubling

Logo Puts It All in "Perspective"

LEGO Robotics in a Macitosh Environment

International Society for Technology in Education

LX Volume 11 Number 4

Logo Exchange is published quarterly by the International Society for Technology in Education (ISTE), 1787 Agate Street, Eugene, OR 97403-1923, USA; 800/336-5191. This publication was produced using Aldus *PageMaker®*

Individual ISTE Members may join SIG/Logo for $16.00. Dues include a subscription to *Logo Exchange*. Add $10 for mailing outside the USA. Send membership dues to ISTE. Add $2.50 for processing if payment does not accompany your dues. VISA, Mastercard, and Discover accepted.

Advertising space in *Logo Exchange* is limited. Please contact ISTE's advertising coordinator for space availability and details.

Logo Exchange solicits articles on all topics of interest to Logo-using educators. See the back cover of this issue for submission guidelines. Opinions expressed in this publication are those of the authors and do not necessarily represent or reflect the official policy of ISTE.

POSTMASTER: Send address changes to *Logo Exchange*, ISTE, 1787 Agate St., Eugene, OR 97403-1923. ISTE is a nonprofit organization with its main offices housed at the University of Oregon. ISSN# 0888-6790

"Awesome" "Way cool." "Slammin'." "Totally there." "Swinging." "Wicked good."

(And these are just the teachers' comments.)

The fact is, whenever we show our three new educational software products to teachers and curriculum coordinators, they get as excited as kids.

And for good reason.

You see, our line of learning software for Macintosh® computers gives teachers of grades 4-8 a unique way of motivating their students.

For one thing, **MicroWorlds**™ products are specifically designed for the classroom. Their flexibility lets students with all different learning styles use what they know to tackle new learning experiences.

What's more, the **MicroWorlds** packages were designed by LCSI, the company known for its award-winning educational products.

Take **MicroWorlds Math Links**™ - it doesn't camouflage math as some space game. Instead, it lets you link math to art, science, and social studies. Students don't just study math, they think mathematically, using math to develop projects ranging from kaleidoscopes to Navaho textile patterns.

With **MicroWorlds Language Art**™ you'll encourage students to explore words and images. Write text in any shape, color or direction. Add effects such as scrolling text, animation. Projects, including Visual Poetry, Ads, Haiku, help you assist students in developing writing skills.

MicroWorlds Project Builder™ gives you the tools to develop a problem-solving, creative-thinking, learning culture across the curriculum. And features like text, drawing tools, animation, and music give students the tools to create anything from simple ecosystems to dynamic maps.

Plus there's more: Each of these products is offered under LCSI's well-known site/network license - the most flexible policy available to schools today.

So for information or a **free** demo disk, call us today at **1-800-321-5646**.

We think, like, you'll be blown away.

MicroWorlds

LCSI®

ISTE BRINGS THE WORLD OF TECHNOLOGY CLOSER TO YOU.

By drawing from the resources of committed professionals worldwide, ISTE provides support that helps educators like yourself prepare for the future of education.

ISTE members benefit from the wide variety of publications, specialized courseware, and professional organizations available to them.

They also enjoy exciting conferences, global peer networking, and mind-expanding independent study courses.

So if you're interested in the education of tomorrow, call us today.
