Many educators around the globe have been using turtle power in their classrooms with very positive results. As a beginning programming language, Logo is your logical choice.

ISTE's Logo in the Classroom series gives teachers fun, easy, and innovative methods for using Logo programming to improve the thinking and problem-solving skills of precollege students.

Logo concepts and tools can be used to teach a variety of subjects. The series offers interactive ways to use Logo for teaching mathematics, language arts, art, modeling and simulations, and computer science.
